# Go BIG Network

A collaborative partnership between the OSU Fisher COB, OSU Extension & the GoBIG Network

## WHAT IS THE GO BIG NETWORK?

An internet-based, interactive “virtual network” for entrepreneurs and the resources providers who want to serve them.

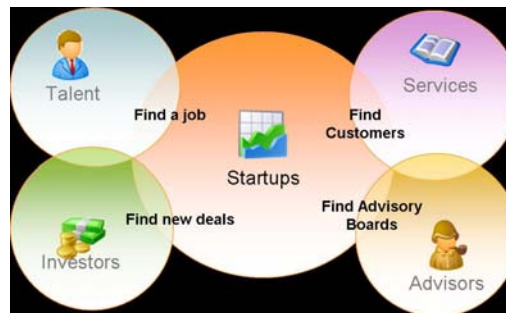

The entrepreneur’s greatest challenge is to find someone to connect them to the resources they need to be successful. Entrepreneurs often do not know how to locate and access needed resources.

The Go BIG Network solves this problem by connecting entrepreneurs with resource providers, advisors, talent and investors .

Go BIG also levels the playing field for rural entrepreneurs by reducing isolation.

### The Go BIG Solution:

**Bringing together all of the parties on-line**

### What does the Go BIG Network do for Communities of Interest?

- Provides networking vehicle for people with similar interests
- Allows for the creation of private interest and/or member-based networks
- Enhances access to needed expertise and services, without dependence on proximity

## How do I use the Go BIG Network?

1. Go online and create an individual profile
2. Search the Network for other members
3. Message each other through the system
4. Build a network of colleagues
5. Broadcast and receive requests through your network
6. Find needed resources and services
