

Women in Agriculture Planning Retreat

November 6 - 7, 2019

- **What's the future of Extension's Women in Ag Team?**
 - **Are we headed in the right direction?**
 - **What changes could we make to become even better?**

We will undertake a "strategic alignment and planning" process with two facilitators from the OSU Extension Community Development area, Kenzie Johnston and Brian Raison. Your input will help direct and improve our future. There will also be time to spend networking with colleagues - critical for planning programming that span across our program areas.
